NWSA Cargo Volume Source: Internal Data

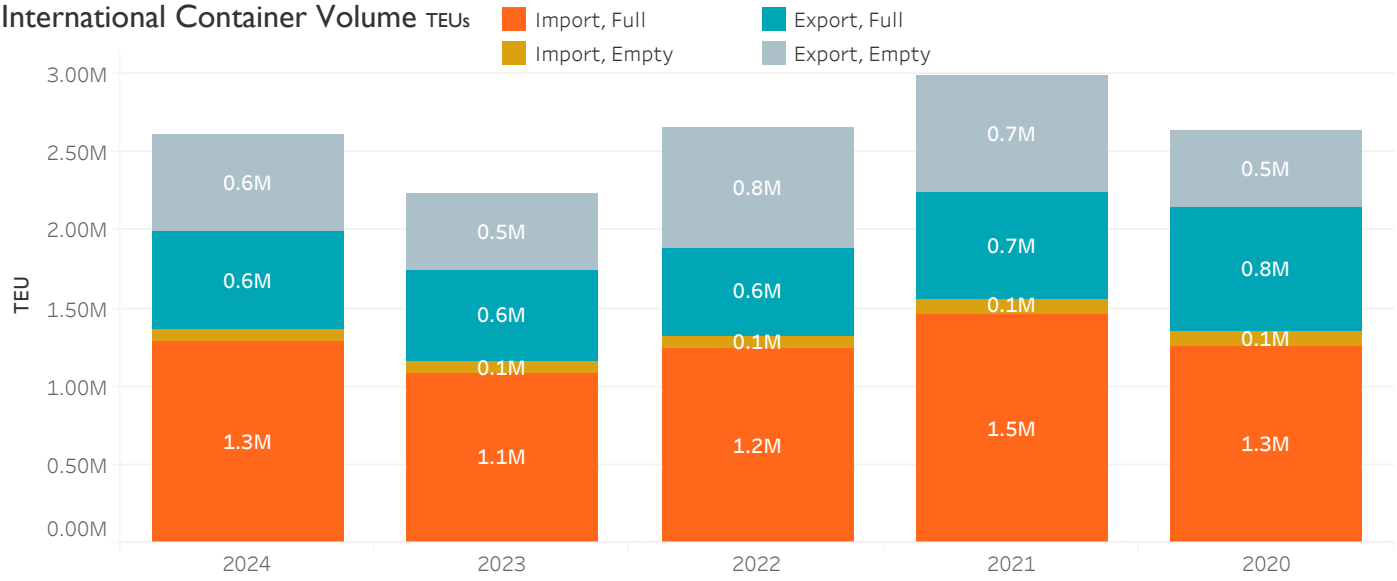

The Northwest Seaport Alliance handled 3.3 million twenty-foot equivalent units (TEUs) in 2024, up 12.3% from 2023's 3 million TEUs. Strong imports were driven by shippers moving cargo ahead of possible tariffs. In addition, shippers diverted cargo to the west coast due to uncertainty around ILA and USMX contract negotiations. Uncertainty around contract negotiations concerning Canadian railroads also contributed to diverted cargo.
